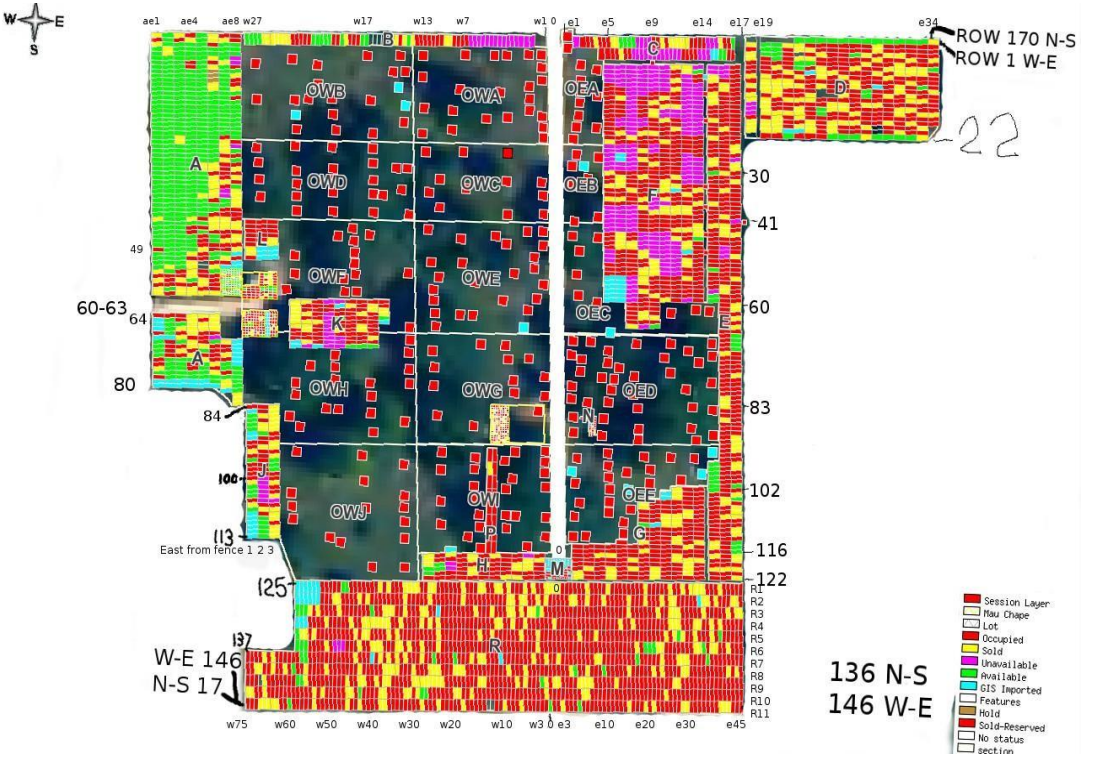
Center Line Michigan St Clement Cemetery
Index with LOCATIONS and best Locator



Index with over 6,500 entries with easy to find locations unlike the church site.

The old lot system was not location friendly so old Professor Wes created a better efficient easy to use location system. Old historian Wesley Arnold did in fact spend thousands of hours researching walking, interviewing, and typing, this work and presents here an **improved location system used in this work**. Here is the way the new easy location method works. We start at the North main gate and walk

counting rows (run East and West) and aisles which run South from the north fence. The main walk is location 0 and locations are either East or West of this. The same method works with the Ritter section to the far south where the zero point is just extended to the south. However for section A and J which are at the far West it is easier to count aisles from the fence because we only have 8 aisles.
There are new burials monthly. Number of known veterans is 253 as of 2018. Check the cemetery website for up to date burials. Number of children is over 1000 but only 520 are noted because we don't have ages on the records. plus there are hundreds which are unregistered and undocumented. Before 1920 there were on average 20 child burials for each 10 adults. There was an average of 1 or 2 indigent burials a year or possibly more as many were not recorded. The priests were not always diligent in recording burials. Also the old records were sometimes neglected and fortunately when I asked permission to visit the old priest house before they tore it down, I found some very worn old books on the floor near the trash. Upon inspection I discovered they were the old cemetery records which I microfilmed the turned over to the church along with alphabetized records of burials on DVDs. Father Bondy was very grateful that I have discovered and saved the old records which would have shortly been part of the rubble of the building. They then used my DVDs to look up old burials and even print the original handwritten listing. The old books could not be used as the old brittle pages crumbled easily. I love doing good. I pass out hundreds of cards yearly that say Be Kind Do Good.

Some families not having funds to purchase a lot may have buried babies and young children secretly as this was a rural area in the past and the cemetery was usually overgrown with weeds to such a great extent that the priest closed the cemetery for years because families were supposed to maintain their own lots but most didn't. Some burials were removed with most going to Mt Olivet. The number of those was small and insignificant when compared to the number buried here we have no record of. This cemetery is multilayer and many graves have been recycled. Newer burials in older sections have sometimes discovered old unrecorded prior burials. In older sectiions

there are many graves the church does not now know in which who is buried there. I have many old maps and other research I am publishing in book form not for money but so it can be preserved. I am kooking for someone who will safeguard my historical research as my grand kids and wife do not value it. Contact me if you can help.

This is has been a many year research project which I must present what I have in my 84th year with little time to live and spread important information. Visit wiseuseful.fyi or dogood.fyi for valuable info and 1004 best Ideas and secrets you need to know.
